

The Flathead Reservation Water Management Board needs a logo.

The five-member board is now meeting regularly as the governing and regulatory body over water users on the Flathead Reservation. As a developing body, the board needs a logo for the office, web page and letterhead.

The board is asking for artistic submissions from everyone, from young students to fledging artists to skilled design pros. We want to see your ideas.

Here are some guidelines as these need to be visible both small and large.

- Simple and elegant is best
- Logos can be black and white, or three color or less
- Themes desired include Unity or United, as in unitarian board
- The theme of water, color and spirit are important
- Included is some language from the Water Compact regarding the board formation to help inspire ideas.

We desire to create a unitary administration system that would provide a single system for the appropriation and administration of the waters of the Reservation and for the establishment and maintenance of a single system of centralized records for all water uses of the Reservation regardless of whether the use is based on State or Federal law.

We agree to provide the necessary foundation for the establishment of a board composed of Tribal and State appointed representatives to provide for the unified administration of all water resources on the Reservation.

Please send a PDF or JPG photo or version of the logo. When the board settles on one, it will utilize a professional designer to transform the artwork into a logo that's reproduceable for all business purposes.

Send your logo to Robert.mcdonald@cst.org. For questions, please contact Robert at 406-675-2700, ext. 1222

The deadline is July 1st, 2022. The winner will receive a \$100 gift card and receive recognition from the board.
