CLOSING DATE: Monday, June 1, 2026 @ 5:30 p.m. (MST)

SPECIAL CONDITIONS:

This position is a Testing Designated Position (TDP) within the definition of the CSKT Drug Testing policy. **The successful applicant, if not already employed by the Tribes must pass a pre-hire drug test. The successful applicant will be required to serve a mandatory six (6) month probationary period.**

The Behavioral Health Professional (BHP) primarily provides clinical treatment services to targeted populations of Tribal Health and Tribal Behavioral Health (BH). This is an outpatient treatment program designed to service patients with behavioral health diagnoses who meet dimensions for outpatient treatment services. This position requires highly independent clinical decision-making, assessment, diagnosis, and treatment planning. Behavioral Health Professional must possess a comprehensive knowledge of mental health and substance use symptoms and diagnostic criteria (as appropriate), therapeutic modalities, trauma-informed care, culturally- and linguistically- competent healthcare, ethical standards, confidentiality, and hold an understanding of compassion fatigue and self-care.

- Assesses changing needs of Tribal health care recipients per regulatory guidelines associated with outpatient programs and incorporates patient care needs into active treatment planning and reviews.
- Adheres to legal and ethical standards of practices as well as Tribal Health policies and procedures.
- Demonstrates positive and therapeutic relationships with health care recipients.
- Demonstrates clear, empathetic, and precise communication to ensure understanding and collaboration with care recipients, supervisors, colleagues, and stakeholders. This includes written and verbal communications as well expressing complementary non-verbal communication.
- Uses appropriate psychotherapeutic and/or counseling techniques and concepts to effectively assist health care recipients with treatment goals, skill building, emotional regulation, and recognizing symptom interference.
- Completes clinical documentation within policy, and provides clinical information to relevant treatment and insurance providers to ensure authorization for services.
- Creates treatment plans that include an effective continuum of therapeutic, supportive, and other services for health care recipients with a variety and complexity of needs.
- Responds to mental health crisis and emergencies using crisis intervention and assessment modalities within Tribal Health and the greater community as indicated.
- *Request position description for a detailed description of desirable qualifications.*
